

Logbook Pro[®]

The 21st Century Logbook Solution

Logbook Pro by NC Software, Inc. is the most reliable, trusted, and accurate pilot logbook and is the industry standard for pilots. First introduced in 1998 Logbook Pro has been adopted by pilots of all types from student through airline pilot across the globe. NC Software continually innovates such as with cloud logbook synchronization and backup embracing the latest technologies.

Logbook Pro features a fully customizable logbook for maintaining accurate records related to a pilot's history from medicals, certificates, ratings, flight reviews, evaluations, and more. Take full control and create custom currencies to get an accurate record of any currency requirement complete with due dates and warnings of currencies coming due.

Advanced data analysis is a must and only Logbook Pro can provide detailed analysis down to the individual aircraft ident flown. Use the powerful

Analyzer to filter your data by dates or aircraft category & class information and performs queries such as "how much Night Cross-Country do I have?" Interactive charting, error analysis, rapid flight log entry using an innovative AutoFill system and double-click auto-entry are just a few of the innovations pioneered by Logbook Pro.

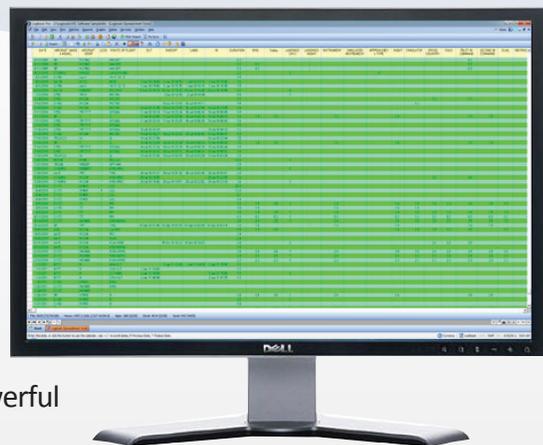

Take Logbook Pro on the go using one of our many supported mobile platforms. A full range of apps for Apple iOS and Google Android are available.
